It is a melancholy fact that the public mind ha seen grossly perverted by the rise and spread of he office-seeking mania. Every third man you neet has a sneaking notion after an office. He ouldn't touch the best thing going if he were not ituated just as he is but his health, or his family r his poverty, constrain him to put in. People are not asking what the Government is likely to o for us by its public policy, but what it can do widing him with an office. There will have to e a new leaf turned, and we care not how soon

INDIANA -- Hon. JOHN PETTIT, Loco Member of ongress from the VIIIth District, suddenly defined a reelection at the Nominating Convention f his party, for the following reasons:

of his party, for the following reasons:

1st. The impropriety of leaving his family, which required his guardian care.

2st. The Pay and Mileage of a Member of Congress are not sufficient to support him at the Capital.

3st. His lameness, poverty and bodily infirmities un it him to endure the fatigues of the campaign.

3th. His public services, if approved at all, should meet with a more universal approved at all, should meet with a more universal approbation than the divisions in his party would seem to indicate.

Other reasons, of a general nature, and immaterial, were assigned.

We should regret to suppose that Mr. Pettit's saving his family behind him while attending longress would involve or induce any 'impro criety' on his part .- As to the Pay and Mileage, we think they must cherish rather liberal notions out West ; for we observe that Mr. Pettit's Mile age for the First Session of the late Congress was \$1,048 80, or computed for 1,311 miles, although the actual distance of his residence from Wash ngton by the most direct Post Route was only 62 iles-difference of Mileage by Circular Route \$3.46 40. It don't seem to us that a man who gets this and 88 per day, sick or well, work or play Sundays and all, ought to back out on account of the pay. GIDEON WELLES, lately removed from the lothing Bureau at Washington, was 'Chief' of that ureau, not 'Chief Clerk,' as stated in our dispatch. Mr. Welles is a Loco-Foco by trade, and has done pretty well by it, and we don't suppose he is the man o complain of his removal. But a Washington corres pondent sends us a rowing up of his official manage ment, which we suppress, not being sure that it is wholly true. So of his strictures on some other Loco-

—But that last reason concerning "divisions in his party" is good. When a man knows he can't get nominated, it is good policy to decline, though it is generally advisable to do it before the meeting of the Convention. Still, different men have different ways. Measrs, Polk and Pettit agreed in choosing their day, John Tyler waited to a day after the fair.

—Jozeff E. McDonald of Montgomery Co, was nominated in Mr. Pettit's stead on the second bailot, 4° votes to 35 for Dan Mace, who was a Wang candidate once, or started to be.

—After the nomination, there was a street-fight between Shelby Martin, a Delegate, and Joseph Ristine, a defeated candidate (Clerk of Fountain Co.) Martin drew a whip on Histine, which the latter wrested from him. Martin then drew a revolver, but broke off the trigger-guard, and the fight was then stopped by the interposition of friendly spectators.

IF Gov. Fish, it will be seen, has commuted the punishment of Alex Jones, the negro under sentence of Death for Arson, in our city, to Imprisonment for Life. This is a most whise and just exercise of the Executive power. The punishment of Jones will yet be quite as severe as his crime deserved, though that crime is believed. GOURAUD'S RAMBLES AMONG THE PLANTS AND FLOWERS. No. 1V

Ah! what warrior-looking flower is yonder clad to crimeon? Oh! it is our out from the pissay—very ornamental and manly in his appearance, but as he has no first grance, we must class him with those "carpet-length" who are more showy than useful. Near the ploot, we have class him with those "carpet-length" who are more showy than useful. Near the ploot, we have clear and the ploot of the should be plant; the form of the contrast to the rich dyes of the solder. This plant is the form of the antients—our own lovely hiy—looking for all the world like a beaunful woman after she has washed her skin a few times with GOURAUD'S Indian Medicated Soap, thereby removing her accumulation of Frecales, Tan, Sanbarn, Sallowness, Redness, Pimples, Roughness, and the like! GOURAUD'S Pouder Swille, is warranted to it completely upriou superfluous hair, from any part of the human frame. GOURAUD'S Medicated Has Restorative is an invasicable article for forcing the hair to grow, and making it rich, self and glossy, and curin, dandruff and scurf. GOURAUD'S Liquid Vegetable Rouge will impart to pale cheeks a lips a crimson flush as magnificent as that of the rose.

This is impossible to procure the gessuas programions of Dr. FELIX GOURAUD, except at his easy depot, 51.
